Stearns Powdered Laundry Bleach is most effective in hot water. It can be used with all detergents and soaps (including enzyme products).

Powdered Laundry Bleach is chlorine-free. It is mild on clothing while giving the bleaching power of a per-oxygen compound.

Directions

Always check the garment-care label for instructions. If washability is in question, dissolve 1 tablespoon of laundry detergent per 1/2 gallon of water with 1 tablespoon of Powdered Laundry Bleach. Soak an inconspicuous portion of the garment for one half hour. If no color change has occurred, proceed with recommended washing instructions.

Sort your clothes according to color, fabric, and extent of soil or stains. Add Powdered Laundry Bleach after adding detergent, but allow to dissolve before adding clothes. Best results if water is over 80°F.

Top loading machines: use 1/2 cup (2 packets)
Front loading machines: use 1/4 cup (1 packet)
Large capacity machines: use 3/4 cup (3 packets)

Personal Protective Equipment: Wear protective gloves. Wear protective eyewear.

Unused Product Disposal: Unused product or its solutions may be poured down the drain. Never pour unused product or its solutions down an outdoor drain.

Improper dilution or improper use of this product may result in skin and eye irritation, damage to surfaces and unsatisfactory cleaning performance.

Pack Recycling: Empty packs should be rinsed out with cold water and then placed for recycling where accepted.

Chemical Characteristics

Appearance	White Powder
